

EXPLOIT Affiliate Launches

Maybe you are thinking right now that this is another expert money-making method, that needs a huge investment... You are wrong!

This method is very simple and efficient...

You haven't seen anything like this every before!

This method is easy to implement and will give you instant results. It's not a method with randomly stuff written just to make it look fancy!

It's a complete step-by-step system that will guarantee your success.

Before we start:

This system is about making money on YouTube with the help of Pixo Blaster. If you will use it wisely then in maximum 2 weeks you will get back your investment and also get extra cash.

Exploit Affiliate Launches

For this method you will need a JVZoo and/or a WarriorPlus account.

Step 1:

Go to <http://muncheye.com/> and you will find all the premium launches that are coming in the following period.

Premium Launches		
JVZ	17 Jun	CopyHack: Social InstaPortfolio \$17 at 50%
JVZ	18 Jun	Todd Brown: Video Top Formula \$27 at 50%
JVZ	23 Jun	Bill Gutter: The New Mystery Video Creator Launc...
JVZ	23 Jun	Mark Brown: Advertising Revolution \$37 at 100%
JVZ	24 Jun	Todd Brown et al. Video Flux \$27-\$47 at 50%
JVZ	25 Jun	Steve Brown et al. CopyHack \$67 at 50%
JVZ	25 Jun	Alan Johnson: The 100% at 100%
JVZ	26 Jun	Joey Kato et al. Viddify \$67 at 50%
JVZ	30 Jun	Abbas Ravji: Niche Genetics \$37-\$57 at 60%

Step 2:

Request access for the 10-20 premium launches. You will not get accepted for all but some of them vendors will accept you even if you have a fresh account. With a fresh account you will not get instant commissions but waiting 30 days will not be a huge problem.

Step 3:

After you get accepted as an affiliate, head to the JV Page of each product and download the demo video of each product. 90% of the launches will host their videos on YouTube, just click on the YouTube Logo from the

bottom of the video and you will be directed to YouTube. Copy the link of the video and download it with keepvid.com

The image shows a sequence of steps for downloading a video. At the top, a video player displays a blurred video with a calendar overlay for June 24th at 11 AM. A red arrow points to the video player, and another points to a 'YouTube' logo. Below the video, a URL bar contains the link 'http://www.youtube.com/watch?v=IOaCTu...'. A red arrow points from the URL bar to a 'DOWNLOAD' button. Below the URL bar, there are two buttons: 'DOWNLOAD' and 'PLAY NOW'. Below these buttons, there is a section for 'SnipMP3 Users' and a 'Notice' about Java. At the bottom, there is a list of download options for the video 'Video Plus JV Invitation' (2:11 duration). A red arrow points to the first option: 'Download MP4 << - (Max 480p)'. To the right of this list is a green 'DOWNLOAD NOW >>' button.

Step 4:

4 Days before the official launch day!

Open Pixo Blaster. This amazing software will help you create the exact video you want for any niche.

Every single niche has a different target or audience. Let's say you are trying to sell a fitness product, or something related to weight loss. That's great, Pixo Blaster have the perfect video for you. Our actor Sam, a young, beautiful woman can make your video look very professional.

On the other hand, let's say you need a video for a niche that is related to "Get rid of wrinkles". With that niche, your audience will be over 40 years for sure, because that is when you get wrinkles. Our actor Pete have many video that can target directly people over 40+.

With Video Lead Studio you can turn any video into automated email lead generation machines. GUARANTEED to get you bigger conversions & more leads & more sales!

Long story short, using Video Lead Studio in 3 simple steps means the following:

1. CAPTIVATE

2. ENGAGE

3. CONVERT

In just minutes from now you could be generating thousands of Laser Targeted Visitors To A Video That is Guaranteed To Convert At Up To 50%+.

Step 5:

We will create our unique video that we will upload on YouTube.

This way our video will be unique in the eyes of YT. After that we save the video file. Make sure that your video file contains your main keyword, something like "video lead studio.mp4" **Step 6:**

Go to YouTube and upload your video as unlisted.

Insert your link in the top part of the video description:

After that, go to "Advanced Settings"

1. Select the category(I recommend News & Politics)
2. Video Location (somewhere in the US)
3. Video Language (English)
4. Recording Date (Today)

Now Click on “Video Manager” Button on the bottom of the current page. On The video manager page click on Edit on the video that we just uploaded.

We should insert our main keyword in as many places as we can. That's why we will insert annotations and captions that contain our main keyword.

Now let's add some captions:

We should add the captions at the end of the video so our viewers will not see them.

The screenshot shows a video player interface for a video titled "Mass Video Blaster PRO". The video is at 3:04 of a 3:19 duration. The interface includes a subtitle editor with a text input field containing "Type subtitle here then press Enter" and a blue plus icon. Below the video player, there are buttons for "Saved" and "Publish", and a "Send feedback" button. Four red arrows point to specific elements: Step 1 points to the video player controls, Step 2 points to the subtitle input field, Step 3 points to the plus icon, and Step 4 points to the Publish button.

Step 7:

We need to boost 1000 views to our unlisted video. Our test proved that 1000 views are more than enough for affiliate launches.

If you don't know a place where to get quality YT views, I recommend Claim Social Authority.

<https://www.qgtube.com/en/>

Step 8:

One day before the official Launch Day

This is the day when all the affiliates will send email blasts and there will be a lot of search after our main keywords and we will exploit all that traffic with our videos.

This day we should make our videos public and in a few hours, we should have top rankings.

Follow this easy 8 steps and you will get results like we are getting with each affiliate launch that we are promoting:

Chapter 2 Youtube Top Ranking Formula

On Page SEO

Title Optimization

The most important factor in rankings is the Title, so we have to make sure we include the primary and secondary keywords.

But don't forget we have to write the title like a headline, to increase the click through rate!

Another cool trick that I've started to use recently and that boosted my click-through-rate are the special characters... Check out the image bellow:

As I'm sure you know, one of the most important factors for YouTube videos is to have an appealing thumbnail, in order to get clicks on your video.

Everybody is saying that good thumbnail will mean more clicks... but they are forgetting that the TITLE is the most important factor to increase the CTR.

Now with the special characters we will not only make our titles look more cool, but you will **STAND OUT OF THE CROWD** !

Imagine that you are promoting an amazon product or a movie trailer...

All your competitor video titles will be like *"productName Review 2015"* or *"productname unboxing"*...

They are all almost identical, so the thumbnail will make the difference...

But if you would have titles like:

"productName Review 2015 - Rating ★★★★★ " - you will stand out of the crowd and people will tend to check out your video!

Here are some special characters that you can use:

(just copy/paste them in your title)

Description Optimization

In the description we can include all the keywords we are targeting and that are related to our niche.

In description we can use up to 5000 characters, I recommend to use all of them! In the past it was ok if you just entered all your keywords separated by commas... but things have changed, YouTube rankings system became even more smarter and will understand that you are doing keyword stuffing...

My recommendation is to write a phrase containing the keyword and not just stuff all your keywords.

People will not see you whole description unless they press on “show more” button(only 5% of users will click on the button)

The screenshot shows a YouTube video description interface. At the top, there are icons for 'Add to', 'Share', and 'More'. The main description text includes:
Published on May 16, 2013
Albumul „Maxim, Am Spus!!!” poate fi cumpărat în format fizic din Okapi Sound Store: <http://goo.gl/9X17K4> 1
Download: <http://goo.gl/gzBrl> 2 3
A 'SHOW MORE' button is circled in red, with two red arrows pointing down to an expanded description box. The expanded text contains:
Published on May 16, 2013
Albumul „Maxim, Am Spus!!!” poate fi cumpărat în format fizic din Okapi Sound Store <http://goo.gl/9X17K4>
Download: <http://goo.gl/gzBrl>

We will make sure that the first 3 lines make sense, our description start with our main keyword, on line 1 or 2 we include our call to action and the link. Starting with line 4 we start to insert a ton of phrases that target our secondary and related keywords.

Don't waste too much time and effort trying to create phrases that make sense... those phrases are inserted only for YouTube ranking algorithm; we must make a "bot" believe they make sense.

Also make sure to shorten your links! No one want to see affiliate links or two-line long link in the description! I recommend to use either <http://bit.ly> or <http://goo.gl>

Tags Optimization

Always make sure that your first tag is your main keyword. Use quotation marks around your most important long tail keywords that you want to rank high for. Include all your related keywords... in here you can stuff as many keywords without getting any penalty!

Captions

For years YouTube(and google) is developing their image processing engine, lately they are trying to apply it on YouTube videos but without much success.

They are investing a ton of money trying to understand what a image is representing and they are indexing the images using this new technology (with a low success rate)...

The good news for us is that they are NOT YET able to detect the content of a video, so they are still relying on the title/desc/tags to understand about what is the video that we just uploaded.

Here comes the trick...

Usually the caption are describing exactly the content of the video (that's what they are trying to achieve using their new image detecting algorithm)

We are exploiting this, by uploading captions that are not really describing the content of our video, but we stuff phrases that contain our main keyword.

SELECT METHOD

Choose how you want to add subtitles or closed captions to this video:

Upload a file ?

Transcribe and set timings ?

Create new subtitles or CC ?

Send feedback

I recommend adding the caption in the last 10 seconds of your video so your viewers are not harassed.

We did a test, we uploaded a video with no title, no description, no tags... only captions targeting a longtail keyword and guess what, we were indexed for that exact longtail in YouTube Search, that proves my point!

Views and Interaction

Increase Views

Check out any popular movie/tv show/game niche and you will see the first page flooded by this method:

Share Your Video

YouTube loves social signals! And all this social signal will bring you views!

The easiest way to get some views is to share your video on your Facebook profile and fan page. After that find some targeted Facebook groups that are related to your products and share your wall/fan page post.

Next is Twitter, Google +, Blogger, Reddit, Tumblr, Pinterest. Create an account in everyone and keep posting your videos.

Playlists

Playlists are a very powerful feature but not exploited as much as it should feature of YouTube.

I always try to create playlists targeting the main keyword and add some popular videos in the niche. I noticed that YouTube is somehow linking the big videos to mine. This way I get in related videos list of the “popular videos” and I get a ton of traffic from there.

Use these easy steps and I can guarantee you will get top rankings!

Automation using BlasterSuite Tools

As you probably already know, we are specialized in developing automation tools for video marketers, in the following page I will show you exactly how you can automate all your daily tasks and increase the money you are making from video marketing.

Creating Videos

We know that every video marketer HATES to create videos and wait a ton of time to rendering videos.

We developed the fastest and easiest to use video creator software, Video Spin Blaster PRO.

You can create videos faster than ever before and add human sounding text to speech to boost your conversions.

For YouTube marketers, VSB will solve the “duplicate content” problem. You can import a single video file, click on one button and VSB will generate as many copies of that video file that you can upload on YouTube. We will modify the “Source” of the video, this way YouTube will see each video that you upload as unique. It's split testing on steroids, create one video, let VSB spin it and test everything you need!

Finding Keywords & Ranking Videos

What good is creating tons of videos if we work with our eyes closed...

Before creating videos, you need to find your niche and find the best keywords in niche that can be exploited. VMB will give you trending niche suggestions and will analyze all the keywords in your niche and tell you exactly what keyword can be exploited.

Do make things even easier for you we automated the whole rankings process described above, perfected and tweaked everything, so you will have only to press one click and Video Marketing Blaster will analyze and generate the perfect title/description/tags combination that you need to get top rankings for any keyword.

Our clients are already getting tons of top rankings for money making keywords!

Uploading Videos

It comes a time when tweaking and increasing conversions hit their limit... That's when you need to start SCALING!

Mass Video Blaster PRO will help you scale your YouTube business in matter of seconds.

You can mass import accounts, assign proxies, MASS Upload, edit videos and track your rankings!

Mass Video Blaster PRO is the leading YouTube software for more than 5 years and many years to come. Our clients are making thousands of dollars each month... and it's easy to see why...
